Truly M — Website Prototype Brief

Brand direction

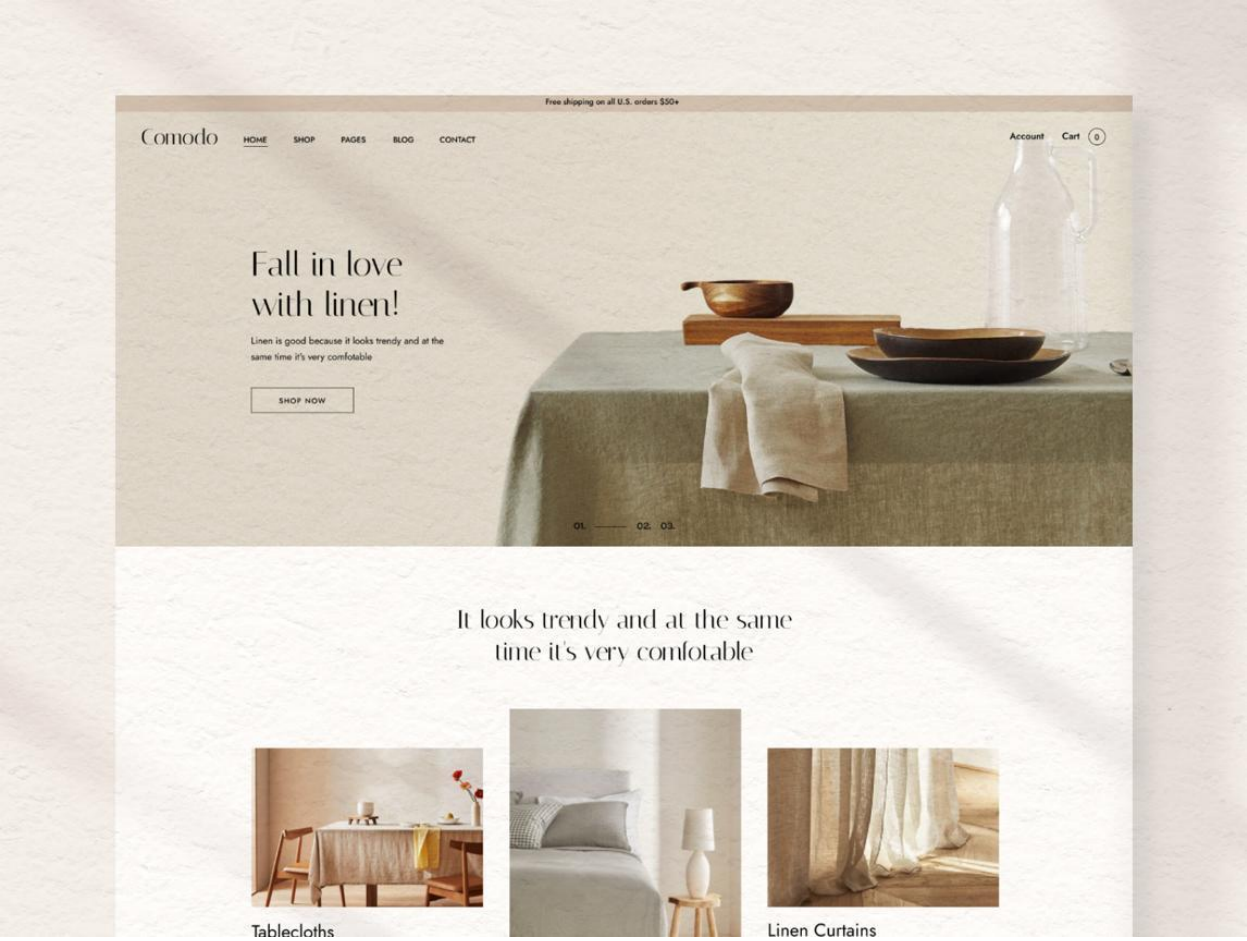

Brand: Truly M

Tagline: Stories Crafted by Hand

Target audience: Female-centric audience, with a focus on customers interested in premium home décor, textiles and contemporary living.

Visual direction: Elegant, warm, minimal, premium and rooted in Indian craftsmanship.

1. Website page structure

01. Home

Brand introduction, hero image, featured collections and a clear call to explore the products.

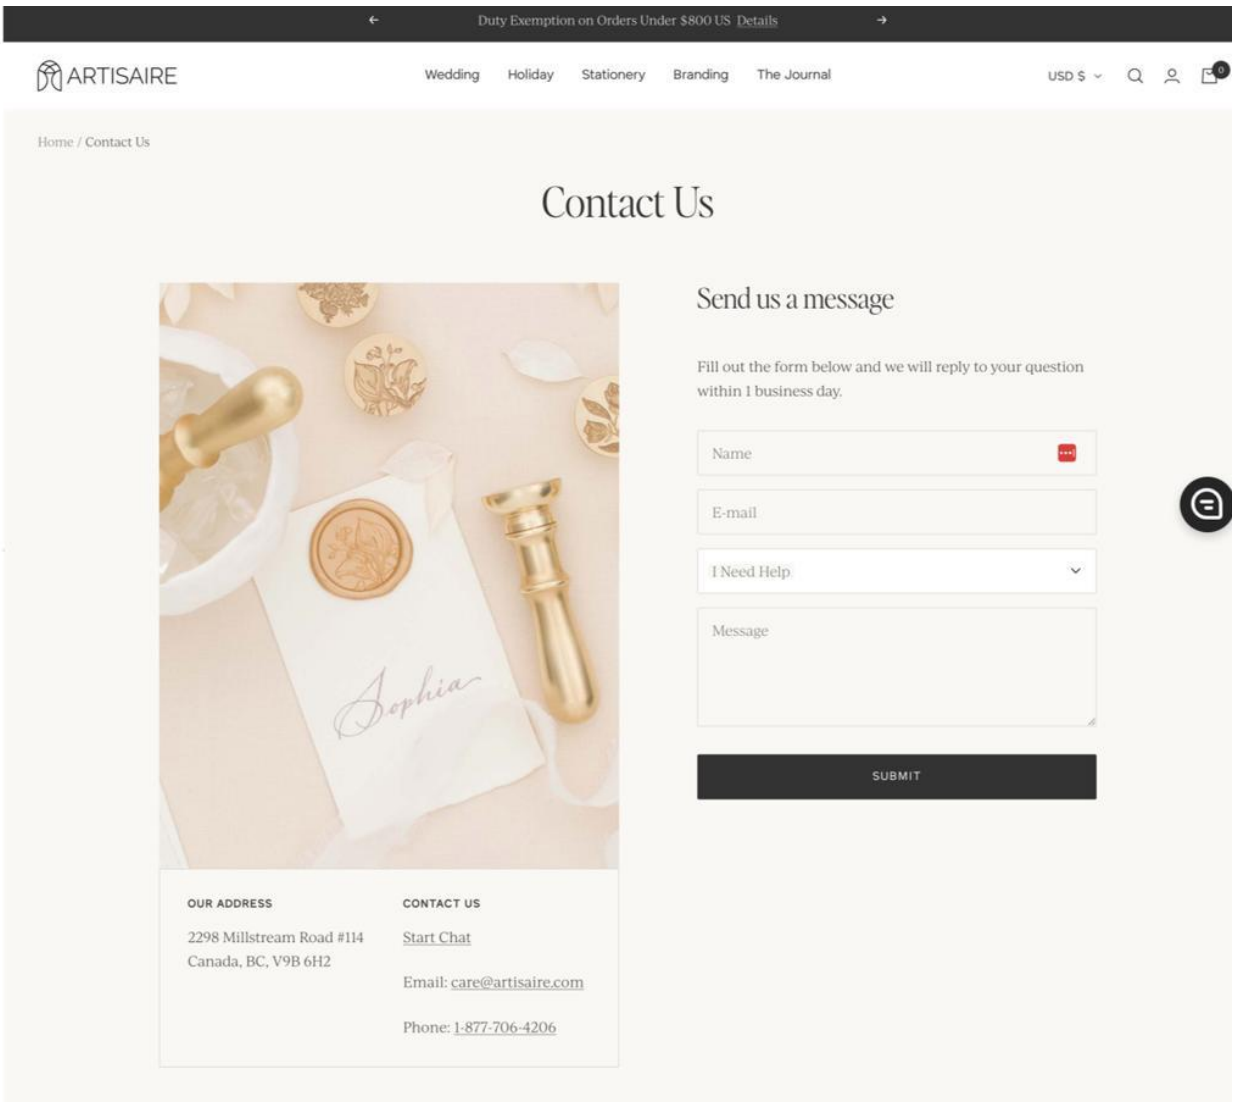

02. About

The Truly M story, craftsmanship, brand philosophy and founder's vision.

03. Collections

A visual product catalogue organised by category, with individual product details and enquiry options.

04. Contact

Contact details, business enquiries and a wholesale enquiry form.

2. Product categories

Organise the Collections section using these categories:

- Home Décor
- Bed Linen
- King Sheets
- Queen Sheets
- Table Linen
- Placemats & Napkins

Each product should have its own detail view or dedicated section containing:

- Product name
- High-quality product photographs
- Short product description
- Material and dimensions, where available
- Available colours or variations
- Enquire About This Product option

The enquiry button should open a form or contact method that identifies the product the customer is interested in.

3. Reference colour palette

The colours you provided suggest a soft, neutral base with red used as the brand accent.

Neutral Ash

#9C928C

Light Grey

#EEEEEE

Soft Grey

#CCCCCC

Warm Beige

Suggested neutral

Red accent: Use the exact red from the Truly M logo for selected buttons, links, small highlights and hover states. We should sample the logo to get the precise colour rather than guessing its hex code.

Note: I interpreted #9C92-8C as #9C928C and 238, 238, 238 as #EEEEEE. Please confirm the ash colour code is correct.

Colour usage recommendation

- 60% — white, off-white and warm beige
- 25% — neutral ash and soft grey
- 10% — product photography and natural textures
- 5% — logo red accents

These are starting design proportions, not fixed requirements.

4. Product enquiry folder

Create a dedicated Product Enquiry folder or workflow so customer interest can be tracked consistently.

Suggested fields:

Field	Purpose
Customer name	Identify the enquiry
Email / phone	Respond to the customer
Product name	Identify the selected product
Product category	Home décor, bed linen, etc.

Quantity required	Understand purchase intent
Message	Capture questions or specifications

For a B2B-focused website, also include Boutique / Business Name and Wholesale Enquiry.

5. Content required from the client

Content collection checklist

0 of 8

Truly M logo in high resolution
Product photos organised by category
Product names and descriptions
Material, size and colour/variant details
Brand story and founder information
Contact details and business email
Wholesale information and minimum order quantities, if applicable
Reference websites and preferred visual styles

6. Recommended homepage flow

1. Hero section: A strong lifestyle photograph, the tagline Stories Crafted by Hand, and an Explore Collections link.
2. Featured collections: Visually introduce the main product categories.
3. The Truly M story: A short introduction to Indian craftsmanship and contemporary living.
4. Product highlights: Feature selected pieces with clear enquiry links.
5. Craftsmanship and limited collections: Explain the brand's approach to distinctive designs, using only confirmed claims.
6. Enquiry section: Invite customers, boutiques and retailers to connect.
7. Footer: Contact information, social links and essential website links.
